

What does it all mean?

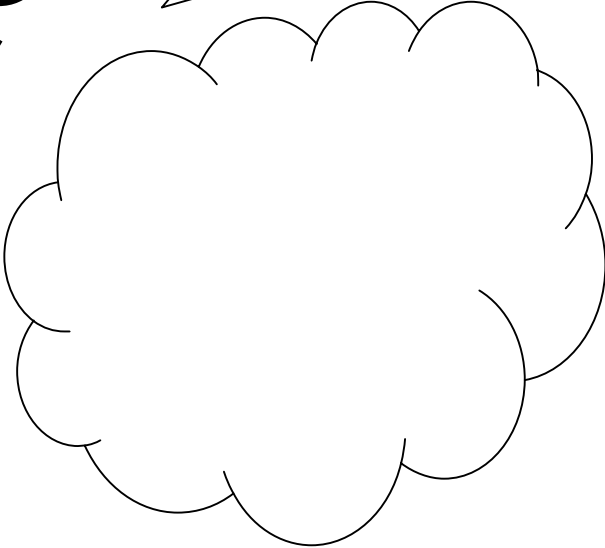

Look at the words below which are all images from the film. Decide what you think the significance (importance) of each image is in the film and whether you think it is connected, in any way, to other symbols. The first one has been started for you as an example, although you can add more information:

Bicycle wheels

Bicycle wheels are round and turn – they have no end and have no beginning or ending. This can be seen as being like the film: which seems to start in the middle of a story which never ends.

Sun

Clouds

Water (sea/river/canal)

Now you think of some more images from the film that can be seen as symbolic and create illustrations like these to show your ideas.
