

Krindlekrax – The Explanation

Put the following into the right order to explain how Krindlekrax got into the sewer:

	Mr Cave said there was no need he would paint one himself. Mr Cave said he could copy things.
	The crocodile escaped to the sewers and became Krindlekrax.
	Mrs Cave said she thought this wouldn't work, because there weren't any dragons to copy.
	Winston looked everywhere, but couldn't find the crocodile. When he told the people at the zoo, he got the sack.
	Mr Lace suggested that they get an animal like a dragon to copy. He suggested a crocodile. Mr Flick thought it was a good idea.
	Dr Flowers was talking to Mrs Cave, who was pregnant. He thought she should get her sign repainted.
	Winston offered to get a crocodile from the zoo. He was pleased, because he thought he had made a new friend.
	Later that night Mrs Cave went into labour and they had to go to the hospital.
	Mrs Cave agreed and asked her husband when he was going to buy a new sign.
	Ten years ago, Winston went into The Dragon and Golden Penny for a drink.
	Mrs Walnut was supposed to look after the crocodile, but she fell asleep.
	Winston gave the crocodile to Mr Cave, who promised to give it back in the morning.
