

Describe a busy shopping mall

You have 45 minutes to complete your answer.

- Do a plan first.
- Remember to consider: sight, sound, smell, taste, touch
- Focus on a moment in time. Don't try to include details of the journey there or back.
- Focus on the question and answer it. Don't write about an empty shopping mall or the day a celebrity visited.
- Think of an interesting opening line to hook the reader. Don't write: 'When I went to the shopping mall ...'
- Place your reader directly in the picture:
'Looking in the window, the old man put his hand up to the glass as if to steady himself.'
- You can write in past or present tense.
- Don't try to be funny: examiners mark to criteria – if you haven't answered the question, you don't get any marks.
