

Task: Produce a verbal / visual presentation that shows Jack's steps to tyranny.

"Every society needs the majority of people to obey the rules"

"The danger comes when people are not thinking about why they are acting"

"People need someone to be responsible – to take the blame"

"Free speech is the cornerstone of a civilized society"

"Human rights are abused when free speech is denied"

"People use fear to squash group power. As it can topple a regime"

"When we see people as part of an out group, we don't help them"

"Evil comes through small steps of hostility"

"People fall into two groups bystander and dissenter"

These quotes are ideas to get you started on your presentation. You need to **explain** Jack's path, **illustrate** this path with your knowledge from the film, **support** your ideas with quotes from the novel and **cross reference** with other areas in the novel.

The result will be a 5 minute presentation, possibly with visual diagrams to be delivered to the class.
