

## A summary of the play

Macbeth is a very brave \_\_\_\_\_. He is also Thane of \_\_\_\_\_. He helps win the war against \_\_\_\_\_.

On the way back from the battle, Macbeth and Banquo meet \_\_\_\_\_ witches at the heath.

The witches predict that Macbeth will become Thane of Cawdor and then later king.

Banquo asks what his future will hold and is told that although he will \_\_\_\_\_ king, in the future his children will be kings.

Macbeth receives a message from King Duncan to say that he has been promoted to Thane of \_\_\_\_\_.

Macbeth writes to his wife, telling her the good news and she is determined that Macbeth will become king. However, she is worried that Macbeth might be too \_\_\_\_\_ to kill the king.

When Macbeth returns to his castle, he and his wife plan to \_\_\_\_\_ King Duncan, when he comes to stay.

Lady Macbeth suggests that they frame the King's guards, by leaving the \_\_\_\_\_ with them.

Once the murder is discovered, the King's sons leave Scotland, because they fear for their safety. One of them goes to \_\_\_\_\_, the other goes to \_\_\_\_\_.

Some time after the murder, Macbeth becomes paranoid and plots to murder \_\_\_\_\_, fearing he knows too much. The murderers manage to kill him, but not his son \_\_\_\_\_.

After he has been killed, Banquo's ghost comes to haunt Macbeth. He goes back to the witches for advice.

They trick him into believing he will be all right. They say that no man born of \_\_\_\_\_ shall harm Macbeth. He agrees to go to battle against Macduff, Malcolm and an army from England.

During the battle, \_\_\_\_\_ is killed and Malcolm takes his rightful place on the throne.
